GENEVAS

Genevas modular saunas

Honed to perfection in the pristine forests of South Estonia, Genevas modular saunas combine traditional Scandinavian sauna culture and modern minimalist architecture.

Eco-friendly

The saunas are made from eco-friendly CLT wood material, which is durable, has excellent thermal insulation, and a high level of fire resistance.

Manufacturing experience

With 19 years of experience in crafting saunas, the manufacturer, together with the Genevas team, has now created a unique new sauna.

2-Year Manufacturer's Warranty

At Genevas, product quality and customer satisfaction are top priorities - that's why we offer a 2-year warranty on every modular sauna.

Weight: 3000 kg

GENEVAS

A photograph of a mountain landscape. The foreground shows a steep, green hillside covered in dense evergreen trees. In the middle ground, a thick layer of white mist or low clouds hangs between the forested slopes. The background shows more distant, misty mountain peaks under a grey, overcast sky.

Building material CLT Wood

Cross-Laminated Timber (CLT) is at the heart of every Genevas sauna — a modern material that combines strength, sustainability, and natural beauty. Thanks to its processing technology and layered structure, CLT is environmentally friendly, fire-resistant, breathable, and allergy-free.

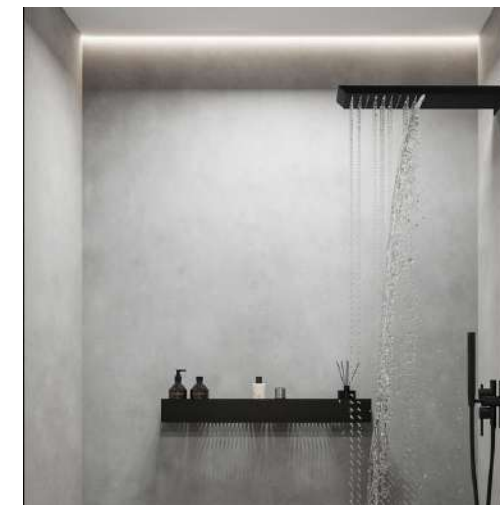

GENEVAS

First-class quality

Each element is designed with precision and care, ensuring durability and a modern contemporary aesthetic. From carefully selected materials to high-quality finishes, every detail has been selected by the Genevas team to offer unique style and functionality.

GENEVAS

Projects and satisfied customers

For us, every project is special and the greatest recognition is a satisfied customer. Here are some examples of our work - from small compact saunas to bigger custom solutions. Each picture tells its own story of quality and dedication.

GENEVAS

About us

Genevas started with the shared desire of two brothers and their grandfather to create a dream sauna on the shore of a summer house lake. In collaboration with a good friend and renowned architect, our vision became a reality.

The result was a unique, modern and modular sauna in harmony with nature, where every detail reflects our family values and Nordic minimalist design. Thanks to the careful selection of materials, high-quality finishing and thought out spatial design, it became more than just a sauna — it is a place where time stops and the soul rests with loved ones.
